

DEVIKA V P

Computer Science Engineering Student — Aspiring Software Developer

devikavp14@email.com — Thrissur, Kerala, India

LinkedIn — GitHub

PROFILE SUMMARY

Motivated Computer Science and Engineering student with a strong foundation in Python, C, HTML, CSS, and JavaScript, with a keen interest in Web Development, Artificial Intelligence, and Machine Learning. Demonstrates strong analytical and logical thinking, effective communication, teamwork, and time-management skills. A disciplined and adaptable learner with a consistent academic record and a passion for developing practical solutions to real-world problems.

EDUCATION

Jyothi Engineering College (Affiliated to APJKTU)

B.Tech in Computer Science & Engineering

Sep 2024 – May 2028

Thrissur, India — CGPA: 8.90

Holy Family Convent Girls Higher Secondary School

Higher Secondary Education, BioMaths

Jul 2022 – Jul 2024

Thrissur, India — 96.67%

INTERNSHIP EXPERIENCE

Emerging Educational Renaissance Authority LLP (ERA)

Quality Assurance Trainee

June 2026

Kalamassery, Kerala

- Successfully completed a one-month internship as a Quality Assurance Trainee, gaining practical exposure to software testing, QA practices, defect identification, debugging, and regression testing.
- Performed manual web and cross-browser testing and gained hands-on experience with Selenium, JMeter, and defect reporting for web-based products.

TECHNICAL SKILLS

Programming Languages: Python, Java, C

Web Technologies: HTML, CSS, JavaScript, Flask

Core Concepts: Object-Oriented Programming, Data Structures, Algorithm Design, Software Design, Debugging

Data & Office Tools: Microsoft Excel (Formulas, Charts, Pivot Tables), WPS Office

AI Tools: Lovable AI, Poe AI, Prompt Engineering, AI-Assisted Development

Version Control: Git, GitHub

PROJECTS

Instruction Execution Cycle Simulator for a Single-Cycle RISC Processor

Python, Flask, JavaScript

- Developed an interactive web-based RISC processor simulator using Python, Flask, and JavaScript, supporting ADD, SUB, AND, OR, SLT, and BEQ instructions through IF, ID, EX, MEM, and WB stages.
- Implemented 32-bit machine-code generation and processor performance analysis including CPI, IPC, throughput, and stall cycles.

Solo Trip Planner

HTML, CSS

- Developed a responsive web application for solo trip planning with destination selection, itinerary planning, budget estimation, and user-focused page layouts.

Study Tracker Application

HTML, CSS, JavaScript

- Developed a student task and progress tracking application with interactive task management and user-friendly layouts for organized study planning.

Ash Help Portal

Flask, SQLite, HTML, CSS, JavaScript

- Built a superhero-themed support portal with an empathetic virtual assistant and urgent assistance request system, using SQLite data storage, email notifications, and a responsive conversational interface.

CERTIFICATIONS

Certification in Full Stack Development

21 July 2025

KGISL MicroCollege — Grade A+

National Entrepreneurship Challenge (NEC) 2025

E-Cell, IIT Bombay

2025

Advanced Track — All India Rank 8

NPTEL

Introduction to Programming in C

2025

IIT Kanpur — 55%
